

## DANIELSON AND PUTNAM NEWS

## DANIELSON

Edredge & Co., a Boston firm of bankers, were the successful bidders for the issue of \$100,000 of bonds of the town of Killingly authorized by the special town meeting held a week ago today, and officials here are delighted at the splendid premium obtained, the price of which the bonds were placed being 102.24. This is a materially better premium than had been hoped for and the fact is highly pleasing to Killingly's officials, as it will be to the townspeople at large. The total premium on the issue amounts to \$1,240, which with the saving in interest to the town that is made possible by issuing the bonds at 4-1-1 and cancelling outstanding notes bearing 6 per cent, will more than pay the first \$4,000 installment on the bonds due in 1923. Such a fine bit of financing earns the congratulations of Killingly's people for the officials that had the matter in charge.

Decision as to the award was made Thursday afternoon at a conference at which First Selectman John A. Gilbert, Town Clerk and Treasurer Frank T. Preston and Frederick A. Jacobs, chairman of the special committee of the town on financing.

The bids in order of the premiums offered were: Edredge & Co., Boston, 102.24; R. M. Grant & Co., Boston, 102.23; Watkins & Co., Boston, 102.14; H. L. Day, Boston, 102.13; Paine, Webber & Co., Hartford, 102.12.

The most drastic cut in prices ever attempted. The bit of the season, January clearance sales open today at the Surplus Store, Danielson and Moosup.

It was stated here Thursday that A. A. Chase of Hartford, for many years a resident of this town, is to take over the plant of Timothy E. Hopkins at the Vernon concrete near East Killingly.

Mr. Chase has been in town this week negotiating for the property and during his stay here made inquiries as to arrangements for filling the houses. Mr. Chase is expected to return here from Hartford within a few days. The houses at the Hopkins ice plant have not been filled for several years. Mr. Chase was engaged in the business here for a long period of years before leaving for Hartford, living at Quinebaug lake, from which the harvests of ice he gathered were distributed in Danielson.

One Sunday paper which has a large circulation in Danielson is going to cost more money after next Sunday. News dealers here received Thursday a notice from the publishers stating that the price was to be advanced. It is likely, it is said, that the paper will be advanced from 10 to 12 cents per copy.

A three to four inch veneer of snow and frozen slush covered all of the territory hereabouts on Thursday and presented the hardest traveling conditions experienced during the present winter.

State highway men have been clearing much of the mess from the trunk line highways, but off these routes the going was as rough and uneven as on the road to the town of Killingly. The storm did not interfere with the operation of the Connecticut company cars, but by a coincidence it is supposed that some of the New Haven road passenger trains arrived very late during the day.

Whist players had their timing at the Bolander club Thursday evening, when the first series of games in the season's tournament were played. Following the playing period a lunch arranged by L. A. Bradford of the executive committee was served.

On account of the storm and the presence of but a small number of members at their meeting, Wednesday evening, installation of the newly elected officers of Leo J. L'Honnore post, American Legion, was postponed until a later date.

Mrs. J. Elizabeth Burlingame, who died in Chicago Monday, was for years a resident of this town, where her husband, Oliver Burlingame, was associated in business with his father, E. R. Burlingame, in the Exchange block. Mrs. Burlingame leaves four children, Carl, Jr., Byron, Ella and Edwin W. Peck.

At East Killingly the presidential card of the United Baptist church will work out plans for the use of what formerly was known as the Free Baptist church as a community home in accordance with a vote of the United church. The church is to be used for community purposes has stood idle for a long time.

At East Killingly people are pleased at the prospect of the building being made available for community interests.

Mrs. Ernest R. Warren announced Thursday that the meeting of the Danielson chapter of the Red Cross is to be held next Monday evening at the home of Mr. and Mrs. George H. Hall, South street.

If the snow and rain that accumulated on the surface of Quinebaug lake is frozen through by the cold (Friday) morning, the ice shown will be so thick and hard that the work of harvesting resumed. It is likely that ice nearly 10 inches thick may be obtained when cutting is resumed.

## TEA IS MORE THAN A BEVERAGE

Besides being a delightful beverage, tea has positive tonic qualities and is a mild stimulant.

But the quality, taste and aroma must be in the tea before it is brewed. The boiling water merely releases what is in the leaves.

These qualities are in LIPTON'S Tea—grown in, cured in, blended in and sealed in—all under Lipton supervision from plantation to package. That's why the world drinks more LIPTON'S Tea than any other.

When you're tired and out-of-sorts, you're quickly set to rights if you're not out-of-LIPTON'S. The Lipton package retains the original freshness and aroma, and the Yellow Label brand is Lipton's best.

Ask your grocer for LIPTON'S Yellow Label Tea. If he does not sell it, send us his name and address and we will mail you a FREE sample and give you the name of a grocer who can supply you. Address: Thomas J. Lipton, Inc., Hoboken, N. J.

Further consideration was being given by city officials Thursday to the problem of adjusting affairs in the fire department on such a basis as to remove in great part all cause for any further rancor on the part of the reasonable minded members of two factions that have figured so prominently for several years past in the dissatisfactions that have been so manifest and the basis for so much incrimination. There is a probability, it was stated, Thursday that the matter may be adjusted this week.

Superintendent of Streets Frederick Dumas had a force of men at work in the business section during Thursday morning on much of the frozen snow as could readily be removed. The traffic showed up the greater part of the accumulation from Wednesday's storm so that no great difficulty was experienced in loading it into vehicles and carrying it to the vacant lot in the rear of the Danahoe building on Main street.

The going was the worst of the winter for all vehicles on Thursday. State highway department plow had scraped a good part of the snow and slush, which afterwards froze into a solid mass from the main arteries of travel through the territory, but on wide streets in the city and on highways that are not improved the going was especially rough, and many an automobile tire was torn or otherwise damaged in negotiating the rough going.

Schooler trolley service was interrupted by the storm. During Thursday the trolley cars were running right on schedule and only an occasional train was late.

Following are the newly elected officers of the Putnam Girls' club: President, Miss Arthur LaChaire; vice president, Mrs. Katherine Licoite; treasurer, Miss Harold Smith; recording secretary, Miss Elizabeth O'Brien; financial secretary, Mrs. Mae Montville; corresponding secretary, Miss Minnie Kenney; chairman local committee, Mrs. Katherine Licoite.

The club has a number of events planned for the remainder of the winter season. Weekly socials, the first of which will be next Monday evening, have been arranged.

William S. Brown of Shepard Hill farm has received a copy of the annual report of the Federal Land Bank of Springfield, which shows the results of the operation of national farm loan associations in this district. This bank, one of a group throughout the country, is a government institution intended to aid farmers. The statement of the Springfield bank shows assets as of Nov. 30, 1921, of \$18,244,859.27.

Newly elected officers of St. Alban's church are: Clerk, Alfred L. Reed; treasurer, Herbert H. Pepler; collector, John W. Smith; members of executive committee, Judge Milton A. Shumway, Sidney P. Marland, John Ashworth, William Shaw, E. H. Keach; auditors, Louis M. Harris, Frances E. Storer.

The Lane & Wadsworth company, which has a contract of building for the state of Rhode Island several miles of the Providence-Boston trunk line highway, is continuing blasting and some small operations, much through the winter, and some of the company are now at work in the town of Foster.

The third and fourth degrees will be conferred upon candidates when Killingly's chapter holds its meeting on Monday evening at the home of Dr. K. Litch, on Main street.

Edward H. Litch is seriously ill at the home of his wife, Mrs. K. Litch, on Main street.

John C. Litch, a Worcester was a visitor with friends in Danielson Thursday.

William W. Nichols was in Boston Thursday on business.

Two of the most popular arrangements for the winter were made in the drawing room of the hotel in Brooklyn Thursday.

These are:

A new heating system is to be installed in the Congregational church in South Killingly. The new system is to be installed in the church building.

Hiram Burton is the newly installed chairman of the committee of the town of Killingly.

Some of the unsuccessful firms of Boston bankers who bid for the issue of \$100,000 of bonds of the town of Killingly were disappointed.

Mrs. A. D. Putnam will have the members of the Ladies' Reading circle at her home for a meeting next Monday afternoon. Current events will be discussed.

The state regent will attend next week's meeting of Sarah Williams Danielson chapter, D. A. R.

THE BODY OF Mrs. Emma Chamberlin Whipple, who died Sunday at the age of 68 at her home in Norwood, Mass., was brought here for burial in Grove street cemetery Thursday morning.

Whipple leaves her husband, F. O. Whipple and two sisters, Mrs. Fred Moulton of Norwood and Mrs. Melissa P. Arnold of this city.

A degree was conferred on candidates at a meeting of Wapagansett Tribe of Red Men at their hall here Thursday evening. Past Sachem W. M. Woodford of Hartford assisted in directing the degree work.

Partners hereabouts who have become interested in the institution are receiving copies of the annual report of the Federal Land Bank of Springfield. The report is detailed and of interest.

Mr. and Mrs. H. B. Haskell and children are to move to California. Mr. Haskell is a member of the Danahoe building on Main street.
